

Robert C. Lee

MS, Biological Science, California State University, Sacramento

Worked in natural resources conservation for 26 years

California Fish and Game, Endangered Species Office, 2 years, at the initiation of their program

USFWS, Merritt Island NWR, FL, 4 years, coordinating environmental monitoring for the Space Shuttle Program and conducting endangered species projects

USFWS Piedmont NWR, GA, 3 years, conducting habitat management with emphases on old growth forest and Red-cockaded Woodpeckers

USFWS Office of Law Enforcement, 17 years as a Special Agent conducting criminal investigations of violations of federal natural resources laws. Emphases were on poaching, pollution, and smuggling. A major objective of my position was to investigate and seek industry compliance regarding migratory bird deaths caused by oilfield waste disposal and storage.

Have served as President and other positions for Indian River Audubon Society (FL) and currently Llano Estacado Audubon Society (Lubbock)

Currently retired and serve on the Board of Directors for South Plains Wildlife Rehabilitation Center in Lubbock

Also serve as the Community Member on Texas Tech University's Institutional Animal Care and Use Committee

Hobbies are disc golf and backpacking
